PROFILE SUMMARY

- Developing high-quality, maintainable, scalable and responsive web applications code using modern web technologies such as HTML, CSS, JavaScript, and Bootstrap.
- Implement and maintain reusable UI components and libraries using React, NextJS and MUI
- Good knowledge of UX/UI design using Figma
- Collaborate closely with UX/UI designers and backend developers to translate design mockups and wireframes into interactive, responsive web pages.
- Ensure that the application is optimized for maximum speed and scalability.
- Worked with back-end developers to integrate UI components with APIs and databases.
- Debug errors, troubleshoot issues, and perform routine performance optimizations.
- Strong understanding of UI architecture principles and best practices.
- Effective communication and collaboration skills, with the ability to lead projects and work effectively in a team environment.
- Stay up-to-date with the latest frontend technologies, tools, and frameworks, incorporating them into our development processes as needed.
